TOXICOLOGY

VOLUME CONTENTS

Volume 60 (1990)

Symposium on new and developing techniques in respiratory toxicology
by K.E. Driscoll and R.C. Lindenschmidt (Cincinnati, OH) ..... 1—
In vivo and in vitro methods for evaluating airways inflammation: Implications for respiratory toxicology
by S.I. Rennard, D.M. Daughton, R.A. Robbins, A.B. Thompson and S. Von Essen (Omaha, NE) ..... 5—1
Nasal lavage as a tool in assessing acute inflammation in response to inhaled pollutants
by H.S. Koren, G.E. Hatch and D.E. Graham ..... 15—2
The use of tracheal implants in toxicology and carcinogenesis research
by J.I. Everitt, T.W. Hesterberg and C.J. Boreiko (Research Triangle Park, NC) ..... 27—40
Physiologic and toxicologic responses of alveolar type II cells
by J.N. Finkelstein, (Rochester, NY) ..... 41—52
In vitro assays to predict the pathogenicity of mineral fibers
by B.T. Mossman and A.M. Sesko (Burlington, VT) ..... 53—61

Research Papers

Editorial 65
The framework of toxicology information
by P. Wexler (Bethesda, MD) ..... 67—98
The effects of lindane and linuron on calcium metabolism, bone morphometry and the kidney in rats
by J.E. Andrews and L.E. Gray (Research Triangle Park, NC) ..... 99—107
Influence of streptozotocin (STZ)-induced diabetes, dextrose diuresis and acetone on cisplatin nephrotoxicity in Fischer 344 (F344) rats
by L.A. Scott, E. Madan and M.A. Valentovic (Huntington, WV) ..... 109—125
Concentration- and time-dependent formation of DNA adducts in lungs of rats exposed to diesel exhaust
by J.A. Bond, J.L. Mauderly and R.K. Wolff (Albuquerque, NM) ..... 127—135
The role of intestinal microflora in the metabolic activation of 6-nitrochrysene to DNA-binding derivatives in mice
by K.B. Delclos, C.E. Cerniglia, K.L. Dooley, W.L. Campbell, W. Franklin and R.P. Walker (Jefferson, AR) ..... 137—150
Metallothionein production: similar responsiveness of avian liver and kidney to chronic cadmium administration
by A.M. Scheuhammer and D.M. Templeton (Ottawa and Toronto, Canada) ..... 151—159
Effect of cadmium on membrane potential in isolated rat hepatocytes
by J. Martel, M. Marion and F. Denizeau (Montreal, Canada) ..... 161—172
Induction of the *P*-450 I family of proteins by polycyclic aromatic hydrocarbons: possible relationship to their carcinogenicity
by A.D. Ayrton, M. McFarlane, R. Walker, S. Neville, M.M. Coombs and C. Ioannides (Surrey, UK) ..... 173—186
Role of γ-glutamyltranspeptidase in renal uptake and toxicity of inorganic mercury in mice (**Inhibition of renal GGT activity reduces inorganic mercury accumulation in the kidney**)
by T. Tanaka, A. Naganuma and N. Imura (Tokyo, Japan) ..... 187—198
Pregnancy-induced mobilization of copper and zinc bound to renal metallothionein in cadmium-loaded rats (**Copper, but not zinc is transported to the foetus, independently of how much cadmium there is in the maternal tissues**)
by K.T. Suzuki, H. Tamagawa, K. Takahashi and N. Shimojo (Ibaraki, Japan) ..... 199—210

Inhibition of catalase and epoxide hydrolase by the renal cystogen 2-amino-4,5-diphenylthiazole and its metabolites **(Substituted thiazoles inhibit cytosolic epoxide hydrolase in vivo and in vitro)**
by J.T. Hjelle, T.M. Guenthner, K. Bell, R. Whalen, G. Flouret and F.A. Carone (Chicago, IL) ..... 211—222
An evaluation of the male reproductive toxicity of cathinone **(Both enantiomers of cathinone have toxic effects of the reproductive system, one slightly more than the other)**
by M.W. Islam, M. Tariq, A.M. Ageel, F.S. El-Feraly, I.A. Al-Meshal and I. Ashraf (Riyadh, Saudi Arabia) ..... 223—234
Protective effect of sodium molybdate against the acute toxicity of cadmium chloride **(The effect may at least partially be caused by induction of metallothionein)**
by Y. Yamane, M. Fukuchi, C. Li and T. Koizumi (Chiba, Japan) ..... 235—243
Interaction of thiourea with rat lung protein **(Indirect evidence suggests that thiourea may bind to cysteine)**
by M.A Hollinger and S.N. Giri (Davis, CA) ..... 245—251
A time course investigation of vitamin A level and lipid composition of the liver endoplasmic reticulum in rats following treatment with congeneric polychlorobiphenyls **(Certain polychlorobiphenyls cause inverse changes in fatty acid and vitamin A contents and in metabolic activities)**
by J.-F. Narbonne, P. Grolier, R. Albrecht, V. Azais, F. Oesch and L.W. Robertson (Talence, Jouy-en-Josas and Paris, France; Mainz, FRG and Lexington, KY) ..... 253—261
3-Methylcholanthrene induces differential inhibition of humoral and cell mediated immune responses in mice of different ages **(The T cell dependent immune reaction to sheep red cells is more markedly depressed in aged mice)**
by M. Sironi, E. Pesenti, S. Bernasconi and A. Vecchi (Milan, Italy) ..... 263—273
Comparison of effectiveness of 3 dithiocarbamates on excretion and distribution of cadmium in rats and mice **(Dithiocarbamates effectively remove Cd from the body without increasing Cd in the kidney or redistribution of Cd to brain, testes or heart)**
by M. Kiyozumi, T. Nouchi, T. Honda, S. Kojima and M. Tsuruoka (Kumamoto and Miyazaki, Japan) .. 275—285
Book review 287
Contents of Journals relating to Toxicology ..... 289—294
Subject Index Volume 60 ..... 295—297
Author Index Volume 60 ..... 299—300
Volume Contents Volume 60 ..... 301—302
